I am writing in reply to your posting regarding a position in health and safety. I have 2 Diplomas in Civil Engineering and one diploma in Building and Public works, and I am a certified Engineering technologist. In addition I have WHMIS training, and also licensed to handle dangerous goods. Through my previous work, I handled permits for Equivalent Level of Safety for Radioactive materials. I am also a qualified Asbestos Inspector, both onsite and for Lab (Microscopy). I have personally supervised and worked on major Hazardous Waste Projects, and have a Environmental Management certificate. I also have my own small business in Internet and computer consulting. I am presently working as computer instructor, following my certification as a CNE for NOvell 3.12, and at the same time working on my CSE certification with Microsoft. Should my background be of interest to you please feel free to contact me by Email, or on my voice mail at 593-6774. I will be glad to fax you a detailed resume. Yours Truly Nash Seifeddine, CET, CNE
